

Dr. Miles' Nervine Triumphs.

Excessive Nervousness from Childhood.
La Grippe Brings on Heart Weakness.

REV. B. P. SEAREY, pastor M. E. church, Buchanan, Ga., writes Dec. 10, 1895: "In childhood I was afflicted with excessive nervousness, which almost developed into St. Vitus' dance. I partially recovered, but at college it gradually grew worse. Close study aggravated the trouble; any unusual exertion caused trembling all over. In 1890 I had a severe attack of La Grippe which brought on heart weakness. I had been almost constantly under treatment for nervous troubles, and changed climates frequently without avail. Last February I began taking Dr. Miles' Restorative Nervine and Nerve and Liver Pills and since then I have been studying more and working harder than for years and the good effects that have resulted seem to be permanent. Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants. DR. The legalization of prize fighting in Nevada will do no good to that state. Advanced civilization is against brutality such as Corbett et al. engage in.

The demands of the non state school men are not unreasonable or unjust. They are not against educational progress in the state. They are in favor of such laws as will give equal advantages to all educational institutions in the state.

In selecting J. Addison Porter as his private Secretary President-elect McKinley has surprised a large number of people, who thought the selection would go elsewhere. Mr. Porter is editor of the Hartford (Conn.) Post and is said to be a very capable man.

SENATOR FAIRBANKS was born and reared on a farm in Union county, Ohio, and passed through the district school. He is thoroughly in sympathy with the common people and his eminent ability will add lustre to the fair name of the Hoosier state.—Ex.

The Supreme court of Michigan has declined to pass on the question whether Mr. Pingree can be mayor of Detroit and governor of Michigan at the same time. Whether it would make any difference with Mr. Pingree if the court should pass upon it is still an open question.

GOVERNOR MOUNT will be applauded for his veto message yesterday. He does not believe that the tendency to increase the courts of the state is in the interests of the taxpayers. The statistics he submitted with his message showed that the courts are less crowded than they used to be.

The Shively anti-trust bill came up in the senate for consideration yesterday but was sent back to the judiciary committee in order that some of the whole sale men could be heard. The measure should be carefully guarded and if amendments are needed to make it better they should be made. Such a law is needed and is in accord with the will of the mass of the people.

The bill introduced by Representative Nicholson to change the legal contract rate of interest from eight to seven per cent was favorably reported in the house yesterday after a hard fight. The measure seems to be a wise one and should be enacted into law. As the law now is, the interest is six per cent unless otherwise specified in the contract, but no contract can be made for a higher rate than eight per cent. The proposed law would affect the legal contract rate of interest only, reducing it from eight to seven per cent, making a higher rate than that usury.

NEURALGIA cured by Dr. Miles' Pain Expeller. "One cent a dose." All druggists.

A bill providing for an indeterminate prison sentence has passed the senate. The bill provides that a jury may simply return a verdict of guilty and when the convict has served the minimum penalty he may be paroled if his prison record has been good. If his record has not been good he may be held longer but not beyond the maximum penalty for the offense for which he had been found guilty. This measure seems to be in the line of prison reform urged by the present management of the Prison South.

The charge made that the management of Purdue University had "fixed" for the coming of the legislative committee has created a little commotion. The Purdue people are even inclined to be angry and brand the charge as false. But the real reason they are agitated over the matter is because there was so much truth in what was published. They have always been "loaded" for these committees and were not unprepared to make a "show" of themselves last week. They really imagined that they were showing themselves off to a good advantage but the opposite was true. They seriously object to the people having any real knowledge of what is necessary to run Purdue.

The demand for legislation to remedy the evils in some of the large building and loan associations is urgent. Every day nearly there is published an account of some new case where stockholder have lost part of the principal which they had paid in. They could have deposited the same money in any bank and have drawn out as much as they deposited, but these associations, under cover of their bylaws have not even paid back as much as the stockholder had paid in. In some cases nearly fifty per cent has been retained by the associations as charges for caring for the deposits. It is the purpose of such associations as this to delay legislation on the subject and have the end of the session come with nothing done. The legislature should see to it that such associations are disappointed. Building and loan associations are great institutions for the people but they have grown to such proportions that new restrictions need to be laid upon them so as to prevent abuses which have become too common.

Serious Accident.
A school marm, who is teaching at the brick church in Hamilton township, was out buggy riding with a young gentleman Tuesday night. When near Jonesville the horse scared and ran away throwing the occupants out. The lady was badly injured and unable to be taken home.

Illinois Wheat Crop.
CARLYLE, Ills., Feb. 4.—The condition of the wheat crop in this vicinity is bad. During the late extreme cold weather the cereal was without the protection of a snow covering and has been still further damaged. Growers representing nearly 50,000 acres have been interviewed and say many large tracts will not produce enough for seedling purposes.

McKinley's Private Secretary.
NEW YORK, Feb. 4.—It can be definitely stated that J. Addison Porter of the Hartford (Conn.) Evening Post will be private secretary to President McKinley. A private telegram from Mr. Porter to a friend in this city states that Major McKinley has appointed him to that position and that he has accepted. The conference was completed at Canton late yesterday.

REAR END COLLISION.

Two Pan Handle Freight Cars Come Together at Tipton.

TIPTON, Ind., Feb. 4.—A rear end collision occurred near the depot here yesterday. Two Pan Handle freight trains were going south. The first stopped to take water, and owing to the dense fog the second train dashed into the caboose, demolishing it and derailing the engine. No one was hurt and the damage was not great.

HONEYTOWN.

Mrs. Tom Hayes' health is much better this week.

Blaze Robertson, jr., and wife, spent Sunday in the family of John Cooley.

The farmer says: "The fodder is in the shock," and liable to stay there.

Protracted meeting at the M. E. church is progressing nicely, and is well attended.

Lee Mitchell will move into the Seabrooks property, lately vacated by George Holender.

There was no Sunday school at either church Sunday on account of the extreme cold weather.

The pavements on our streets are equal to vitrified brick, everybody walks to and from church for many miles around instead of using their fine rigs. A few months ago, Mr. Byron Every, of Woodstock, Mich., was badly afflicted with rheumatism. His right leg was swollen the full length, causing him great suffering. He was advised to try Chamberlain's Pain Balm. The first bottle of it helped him considerably and the second bottle effected a cure. The 25 and 50 cent sizes are for sale by C. W. Milhous.

AN IDEAL BACHELOR.

A WRITER WHO UNDERTAKES TO TELL ALL ABOUT HIM.

How He Must Dress and the Rules of Conduct He Must Observe to Be Classed as a "Complete Bachelor"—His Manner With Ladies and Servants.

There are those who would say that a bachelor has no business to be complete; that it is the duty of every young man to marry at the earliest practicable moment and so give over the selfish joys of bachelorhood. But as long as young men in their lamentable desire to be comfortable refuse to look at the matter in that light there is need that they should be duly instructed in the properties of their position, and what better instructor could they have than the anonymous genius who writes of things "As Seen by Him" in that very fashionable publication, Vogue? It is he who tells them what "the complete bachelor" should be, and if they are wise they will listen to his words. All the contingencies which arise in the social life of the bachelor are duly considered. First, there is the matter of his public manners, in which many men who regard themselves as well bred are woefully deficient. They will smoke in the street, keep women standing on corners while they talk to them, sit while women are standing, carry sticks or umbrellas at offensive angles, stare women out of countenance at theaters or hotels, and in general make nuisances of themselves. Now, a bachelor who will do any of these things is wretchedly incomplete.

Then comes the question of clothes. Nothing more distinguishes the gentleman than what he wears. Nor is it enough, as many do, to be nice in the matter of gloves, shoes or cravats and owe large sums to the tailor. Dressing is not so much a matter of money as a matter of taste. After a man has put his wardrobe in proper condition he may get along remarkably well on a very small yearly sum. Our author does not disdain to give economical hints, to tell how the tailor around the corner will do perfectly well some things for which the "swell" tailor would charge roundly, to explain how to get out of a suit the utmost possible service. Such things are beneath no man's attention, though he be a genius or a millionaire. Until the art of dressing properly is understood, the moral progress of society will remain an idle dream. We need not add that the man who wears a "made tie" belongs in the outer darkness of barbarism. It is gratifying also to note that the use of the Tuxedo, or house coat, is earnestly recommended. Since every complete bachelor will invariably dress for dinner, he will find in the Tuxedo an economical and easy substitute for the more rigorous full dress coat, and one that can be worn not only at home, but in informal companies of gentlemen and at the theater or in a public restaurant. We note that our author speaks a good word for the black tie with a Tuxedo, though he does not absolutely bar a white one. This is a question upon which no thoroughly satisfactory ruling has ever been made. For our own part, we think that those occasions whereon a man feels a white tie incumbent also demand a "swallow tail" coat.

The toilet is not less important than the dress. Scrupulous care in this respect is certainly the mark of a complete bachelor. That a man should take his tub every morning goes without saying. At the same time there is no need to insist upon the rigor of the game and say that the water shall be cold. Tepid water is best. "Every man should learn to shave himself." These are golden words. A barber is occasionally necessary no doubt, but there is something offensive to refined sensibilities in the picture of a long row of men in chairs having a part of their toilet performed. Our author says nothing of the habit of having boots blacked in the street, justly regarding it as one so bad as to be unspeakable. Patent tooth powders, washes, pomatums and nostrums of every kind are condemned without reserve. This, too, shows good sense. The care of toilet articles is rightly insisted upon. A man cannot be a complete bachelor unless he is willing to take some trouble. The custom of wearing the hair long is disapproved.

No point is too minute for the consideration of this thoughtful writer. The etiquette of cards is a matter upon which lamentable ignorance is often displayed, and in calling and dining out there are those who show the lack of breeding. The practice of grasping or squeezing the hand of a lady is (barring exceptional circumstances) undecidable. "A man removes his glove from his right hand on entering the drawing room, and holds this, with his stick and hat, in his left. The hat should be at an angle, the top about level with his nose." This is important. But something more than mere politeness is required of the complete bachelor. His goodness of heart will come out in his treatment of his servants. Though he must "exercise an iron will," he must also "encourage them now and then by a kind word." And once in awhile they must have a holiday or some cast off clothing. They, in their turn, should be "noiseless and automatic." Such things too many young men forget.

With this book, however, they cannot go very far astray. They can learn how to behave at dances and at country houses and at clubs. If it is objected that on these subjects gentlemen do not need instruction, the retort is obvious. Persons who are not gentlemen have their ambitions and frequently try to become complete bachelors. And since this is so, let us be grateful for the mentor who is able to give them so much excellent advice.—Providence Journal.

A GOOD LETTER

From the Clerk of the Circuit Court

FERNANDINA, Fla., Feb. 28, 1896

Mr. J. GEORGE SCHURR, Druggist, City.
Dear George—Please send me a bottle of Chamberlain's Cough Remedy. I would not feel easy if I knew there was none of this valuable Remedy in the house. I have given it a fair test and consider it one of the very best remedies for croup that I have ever found. One dose has always been sufficient although I use it freely. Any cold my children contract yields very readily to this medicine. I can conscientiously recommend it for croup and colds in children.

Yours Respectfully, GEO. E. WOLFE.

MOUNT'S FIRST VETO

Two Bills Fail to Meet the Governor's Approval.

TAKING CARE OF THE TAXPAYER.

Veto of the Bill For a Superior Court
For Grant and For Separate Districts of Howard and Tipton Counties Sustained by a Vote of 52 to 39—Work of the Senate.

INDIANAPOLIS, Feb. 4.—The governor Wednesday sent his first veto message to the legislature, covering two bills, one for the creation of a superior court in Grant county and the other for the division of Howard and Tipton counties into separate judicial circuits. In his message the governor quoted statistics to show that there had been a diminution rather than an increase in the litigation of these two counties and said: "I believe I am not mistaking the spirit of parsimony for economy, but seeking to be just, alike to litigants and taxpayers, when I suggest that a superior court district composed of Grant and Howard and the giving of more of the time of the thirty-sixth judicial district to Tipton county will afford the needed relief." The governor also suggested that the judiciary of the state is sadly in need of a revision.

The message was transmitted to the house just before the adjournment of the morning session and action upon the vetoed bills was deferred until after the noon hour. Then the author of both bills moved their passage over the veto. The governor was sustained in his veto by a vote of 52 to 39.

The morning session of the senate was very brief, as an early adjournment was taken on account of the death of the son of Senator Schneck. The Shively antitrust bill was a special order in the afternoon but was re-committed. The senate passed Senator Shea's bill appropriating \$1,000 for a monument at Pigeon Roost and Senator Shively's bill enabling the Grand Lodge of Knights of Pythias to build a Castle hall. Senator Gilbert's bill declaring invalid all mortgages that do not have the certificate of the assessor attached showing that they have been assessed for taxation was defeated.

Fate of Two Bills.

INDIANAPOLIS, Feb. 4.—The house on Wednesday passed Mr. Canada's bill providing for the organization of county homes for children by charitable organizations and requiring county commissioners to place children who are a charge upon the county in these institutions. It also defeated Mr. Hall's bill requiring jail prisoners to work out their fines upon the streets and roads.

New Bills Introduced.

INDIANAPOLIS, Feb. 4.—Mr. Sutton, a member of the building and loan commission appointed by Governor Matthews, introduced in the house Wednesday the bill prepared by the commission. Mr. Nicholson introduced an amendment striking out the clause in the present law which gives to graduates of the State Normal, after teaching two years, a life license good all over the state.

Adams-Miller Contest.

INDIANAPOLIS, Feb. 4.—The election committee after hearing all the testimony in the Adams-Miller contest from Parke county, held a final meeting Wednesday and decided to report in favor of Mr. Miller by a vote of 4 to 5. The committee's report was sustained at a caucus last night.

Against Lobbying.

INDIANAPOLIS, Feb. 4.—Representative Farnsworth introduced a bill Wednesday making it a misdemeanor for any person to lobby on the floor of either house. The first offense is a fine of \$10 to \$50 and the second \$10 to \$100. Imprisonment may be imposed in both instances.

Usury Law.

INDIANAPOLIS, Feb. 4.—There were two reports on Mr. Nicholson's usury bill Wednesday fixing the rate of interest at 6 and 7 per cent. The majority report was unfavorable and the minority report which was favorable to the bill was adopted by a vote of 64 to 30.

Intermediate Penitentiary.

INDIANAPOLIS, Feb. 4.—Senator Ellison's bill for the establishment of an intermediate penitentiary for criminals from 16 to 30 is the special order for today in the senate.

Pure Food Bills.

INDIANAPOLIS, Feb. 4.—The house committee on health gave a hearing to the Wholesale Grocers' association last night. The association is opposing the pure food bills before the legislature.

GENERAL STATE NEWS.

Labor Trouble Settled.

HARTFORD CITY, Ind., Feb. 4.—S. McKee & Co.'s windowglass factory, blacklisted by President Burns of the Windowglass Workers' association a few days ago, has settled the trouble, and the strike is off.

Poole Found to Be Insane.

FOWLER, Ind., Feb. 4.—John W. Poole, who shot and robbed John Quigler last week, has been adjudged insane and sent to the hospital at Indianapolis. This is the third time he has been in that institution.

Internal Revenue Collections.

TERRE HAUTE, Ind., Feb. 4.—The internal revenue collections for this district for January were unusually large owing to the payment of \$595,412.75 whisky tax. The total for the month was \$502,838.86.

Trains Blocked.

WARAB, Ind., Feb. 4.—Eastbound freight train ran through an open switch here, plunging 80 feet through the snow, blocking both the main and side tracks. All trains were delayed several hours.

Sheep may be carried through the winter profitably if one has a good store of straw, hay and grain which did not cost too much. If we try to keep them on just enough food to support life, we shall not have much beyond a very poor collection of pelts when spring comes and it does not pay to keep sheep for that end.

COURT NOTES

Our attorneys and many others went to court this morning. The most important suit is the case of John R. Wells who sued the B. & O. S. W. for the loss of a fine clover huller which was torn to pieces by a train at Shields last summer. Several railroad employees went down as witnesses in the case.

First Baptist Church Meeting.

The revival services at the Baptist church are growing in interest. Pastor Cleveland is assisted by Rev. W. W. Smith, of Greensburg, who is doing most of the preaching this week. McKINLEY'S BIBLE

For Inauguration Day Use to Be Selected in Cincinnati.

Bishop B. W. Arnett, of the A. M. E. church, who resides at Wilberforce, near Xenia, O., is at Cincinnati, to select a Bible to be used by President-elect McKinley in taking the oath of office on the 4th of March, the honor of furnishing the Bible having been accorded the A. M. E. church by Major McKinley when a number of the Bishops went to see him recently. The Methodist Book Concern, of Cincinnati, will furnish the book, and it will be encased in a black walnut case, trimmed with gold. The wood was grown in Greene county, and the box was made in Cincinnati by H. W. Owens.

Ex-Congressman J. L. Rawlins, a democrat, has received the majority vote of the Utah legislature for United States senator.

It seems right well assured that Judge McKenna, of California, will be secretary of the interior in the McKinley cabinet.

In the Adams-Miller contested election case the committee has decided in favor of Miller. Miller was elected as a democrat, a populist and a prohibitionist.

In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Going to Jail.

Mr. Ward L. Smith, of Fredericks-town, Mo., was troubled with chronic diarrhoea for over thirty years. He has become fully satisfied that if it was only a question of a short time until he would have to give up. He had been treated by some of the best physicians in Europe and America but got no permanent relief. One day he picked up a newspaper and chanced to read an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He got a bottle of it, the first dose helped him and its continued use cured him. For sale by C. W. Milhouse, Druggist.

CASTORIA.

The little child signature of Castoria is on every wrapper.

In England, Queen Victoria has recorded a longer reign than any other English sovereign. In May of 1897 she will have been queen for sixty years. At that time it is expected that appropriate festivities will be held in celebration of the event. It has even been hinted, but has not been seriously considered, that she will abdicate in favor of her grandson, the Prince of Wales. The truth is that the queen, who is very temperate and methodical in her manner of living, bids fair to outlive the Prince of Wales, and the next king of England will not be Prince Albert Edward but the present Duke of York. —Hazlitt Alva Cuppy in the Twentieth Century Monthly, Chicago.

McCann—Graue.

Edwin A. McCann, of Seymour, Ind., and Miss Flora Graue, of Oswego, were united in marriage Tuesday, January 26th, at the Methodist parsonage by Rev. Chase. Mr. McCann is a locomotive fireman on the B. & O. railroad, and met his bride four years ago while on a visit to his uncle in Canada township, this county. Mrs. McCann has been register of deeds during her father's term of office and by reason of her position has an extensive acquaintance over the county. Many friends extend congratulations and good wishes to this worthy couple. Their future residence, will be at Seymour, Ind.

Mrs. McCann's associates in office presented the newly wedded couple with a handsome set of silver knives and forks before they departed for their home.—Oswego Independent.

CASTORIA.

The little child signature of Castoria is on every wrapper.

This unconventional comedy drama of New England life does not rely upon any old-fashioned theatric devices for approval or applause, the great strength of Mr. Herne's work lying in its remarkable character creations. There is absolute truth to nature. Its dramatic personae come and go as people do in real life, and their speech and action is appropriate to the scene. Humor and pathos are nicely blended, and the story told in "Shore Acres" is deeply interesting. Mr. Herne's hero does not go about speaking didactic prose, neither does he pose in the center of the stage. Uncle Nat is quite a different kind of a man, and his heroism is of the unconscious quality. There are nearly thirty characters introduced in "Shore Acres." The company carries all its own scenery and properties.

The Ideal Panacea.

Samuel I. Francis, Alderman, says: "I regard Dr. King's New Discovery as an Ideal Panacea, for Coughs, Colds and Lung Complaints, having used it in my family for the last five years to the exclusion of physician's prescriptions or other preparations." Rev. John Burgus, Keokuk, Iowa writes: "I have been a minister of the Methodist Episcopal church for 50 years or more, and have never found anything so beneficial, or that gave me such speedy relief as Dr. King's New Discovery." Try this Ideal Cough Remedy now. Trial bottles free at W. F. Peter, successor to J. H. Andrews & Co's drug store.

To Protect Fish.

Secretary Hurty, of the state board of health is hopeful that the fishermen of the state will interest themselves in the bill introduced about two weeks ago by Representative Herod, of Johnson county. One provision of the bill is to prevent and abate the pollution of rivers, water courses, lakes and springs. This is not only a menace to the public health, but it is disastrous to the fish. The bill is now in the hands of the committee and some action will probably be taken on in a few days.

Walter Wellman in his letter to the Chicago Times-Herald says: Congressman Dolliver, of Iowa, as every one by this time knows, is the author of the now famous phrase, "advance agent of prosperity," as applied to Major McKinley. Impatient men are fond of writing letters to Mr. Dolliver, asking him when the show is to come along. They have seen the advance agent, but the main attraction seems to be lost by the way. To one such correspondent, a resident of Calhoun County, Iowa, Mr. Dolliver replied to the following effect:

1. Major McKinley is not yet president.
2. It takes a long time to get out of such a condition as the country has been in for several years.
3. You know you can go out to Hell Slough in your county and get so deep in it before breakfast that you can't get out before sundown.

Dr. Miles' Nervine Triumphs.

Excessive Nervousness from Childhood.
La Grippe Brings on Heart Weakness.

REV. B. P. SEAREY, pastor M. E. church, Buchanan, Ga., writes Dec. 10, 1885: "In childhood I was afflicted with excessive nervousness, which, almost developed into St. Vitus dance. I partially recovered, but at college it gradually grew worse. Close study aggravated the trouble; any unusual exertion caused trembling all over. In 1890 I had a severe attack of La Grippe which brought on heart weakness. I had been almost constantly under treatment for nervous troubles, and changed climates frequently without avail. Last February I began taking Dr. Miles' Restorative Nervine Pills and since then I have been studying more and working harder than for years and the good effects that have resulted seem to be permanent." Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle cures or money refunded. Heart and Nervousness free to all applicants. DR. MILES MEDICAL CO., Elkhart, Ind.

The legalizing of prize fighting in Nevada did no good to that state. Advanced civilization is against brutality such as Corbett et al, engage in.

The demands of the non state school men are not unreasonable or unjust. They are not against educational progress in the state. They are in favor of such laws as will give equal advantages to all educational institutions in the state.

In selecting J. Addison Porter as his private Secretary President-elect McKinley has surprised a large number of people, who thought the selection would go elsewhere. Mr. Porter is editor of the Hartford (Conn.) Post and is said to be a very capable man.

SENATOR FAIRBANKS was born and reared on a farm in Union county, Ohio, and passed through the district school. He is thoroughly in sympathy with the common people and his eminent ability will add lustre to the fair name of the Hoosier state.—Ex.

The Supreme court of Michigan has declined to pass on the question whether Mr. Pingree can be mayor of Detroit and governor of Michigan at the same time. Whether it would make any difference with Mr. Pingree if the court should pass upon it is still an open question.

Governor Mount will be applauded for his veto message yesterday. He does not believe that the tendency to increase the courts of the state is in the interests of the taxpayers. The statistics he submitted with his message showed that the courts are less crowded than they used to be.

The Shively anti-trust bill came up in the senate for consideration yesterday but was sent back to the judiciary committee in order that some of the whole-sale men could be heard. The measure should be carefully guarded and if amendments are needed to make it better they should be made. Such a law is needed and is in accord with the will of the mass of the people.

This bill introduced by Representative Nicholson to change the legal contract rate of interest from eight to seven per cent was favorably reported in the house yesterday after a hard fight. The measure seems to be a wise one and should be enacted into law. As the law now is, the interest is six per cent unless otherwise specified in the contract, but no contract can be made for a higher rate than eight per cent. The proposed law would affect the legal contract rate of interest only, reducing it from eight to seven per cent, making a higher rate than that usury.

A BILL providing for an indeterminate prison sentence has passed the senate. The bill provides that a jury may simply return a verdict of guilty and when the convict has served the minimum penalty he may be paroled if his prison record has been good. If his record has not been good he may be held longer but not beyond the maximum penalty for the offense for which he had been found guilty. This measure seems to be in the line of prison reform urged by the present management of the Prison South.

The charge made that the management of Purdue University had "fixed" for the coming of the legislative committee has created a little commotion. The Purdue people are even inclined to be angry and brand the charge as false. But the real reason they are agitated over the matter is because there was so much truth in what was published. They have always been "loaded" for these committees and were not unprepared to make a "show" of themselves last week. They really imagined that they were showing themselves off to a good advantage but the opposite was true. They seriously object to the people having any real knowledge of what is necessary to run Purdue.

The demand for legislation to remedy the evils in some of the large building and loan associations is urgent. Every day nearly there is published an account of some new case where stockholder have lost part of the principal which they had paid in. They could have deposited the same money in any bank and have drawn out as much as they deposited, but these associations, under cover of their bylaws have not even paid back as much as the stockholder had paid in. In some cases nearly fifty per cent has been retained by the associations as charges for caring for the deposits. It is the purpose of such associations as this to delay legislation on the subject and have the end of the session come with nothing done. The legislature should see to it that such associations are dis-appointed. Building and loan associations are great institutions for the people but they have grown to such proportions that new restrictions need to be laid upon them so as to prevent abuses which have become too common.

Serious Accident.

A school marm, who is teaching at the brick church in Hamilton township, was out buggy riding with a young gentleman Tuesday night. When near Jonesville the horse scared and ran away throwing the occupants out. The lady was badly injured and unable to be taken home.

Illinois Wheat Crop.

CARLYLE, Ills., Feb. 4.—The condition of the wheat crop in this vicinity is bad. During the late extreme cold weather the cereal was without the protection of a snow covering and has been still further damaged. Growers representing nearly 50,000 acres have been interviewed and say many large tracts will not produce enough for seedling purposes.

McKinley's Private Secretary.

NEW YORK, Feb. 4.—It can be definitely stated that J. Addison Porter of the Hartford (Conn.) Evening Post will be private secretary to President McKinley. A private telegram from Mr. Porter to a friend in this city states that Major McKinley has appointed him to that position and that he has accepted. The conference was completed at Canton late yesterday.

REAR END COLLISION.

Two Pan Handle Freight Cars Come Together at Tipton.

TIPTON, Ind., Feb. 4.—A rear end collision occurred near the depot here yesterday. Two Pan Handle freight trains were going south. The first stopped to take water, and owing to the dense fog the second train dashed into the caboose, demolishing it and derailing the engine. No one was hurt and the damage was not great.

HONEYTOWN.

Mrs. Tom Hayes' health is much better this week.

Blaze Robertson, Jr., and wife, spent Sunday in the family of John Cooley. The farmer says: "The fodder is in the shock," and liable to stay there.

Protracted meeting at the M. E. church is progressing nicely, and is well attended.

Lee Mitchell will move into the Seabrooks property, lately vacated by George Holender.

There was no Sunday school at either church Sunday on account of the extreme cold weather.

The pavements on our streets are equal to vitrified brick, everybody walks to and from church for many miles around instead of using their fine rigs.

A few months ago, Mr. Byron Every, of Woodstock, Mich., was badly afflicted with rheumatism. His right leg was swollen the full length, causing him great suffering. He was advised to try Chamberlain's Pain Balm. The first bottle of it helped him considerably and the second bottle effected a cure. The 25 and 50 cent sizes are for sale by C. W. Milhous.

AN IDEAL BACHELOR.

A WRITER WHO UNDERTAKES TO TELL ALL ABOUT HIM.

How He Must Dress and the Rules of Conduct He Must Observe to Be Classed as a "Complete Bachelor"—His Manner With Ladies and Servants.

There are those who would say that a bachelor has no business to be complete; that it is the duty of every young man to marry at the earliest practicable moment and so give over the selfish joys of bachelorhood. But as long as young men in their lamentable desire to be comfortable refuse to look at the matter in that light there is need that they should be duly instructed in the properties of their position, and what better instructor could they have than the anonymous genius who writes of things "As Seen by Him" in that very fashionable publication, Vogue? It is he who tells them what "the complete bachelor" should be, and if they are wise they will listen to his words. All the contingencies which arise in the social life of the bachelor are duly considered. First, there is the matter of his public manners, in which many men who regard themselves as well bred are woefully deficient. They will smoke in the street, keep women standing on corners while they talk to them, sit while women are standing, carry sticks or umbrellas at offensive angles, stare women out of countenance at theaters or hotels, and in general make nuisances of themselves. Now, a bachelor who will do any of these things is wretchedly incomplete.

Then comes the question of clothes. Nothing more distinguishes the gentleman than what he wears. Nor is it enough, as many do, to be nice in the matter of gloves, shoes or cravats and owe large sums to the tailor. Dressing is not so much a matter of money as a matter of taste. After a man has put his wardrobe in proper condition he may get along remarkably well on a very small yearly sum. Our author does not disdain to give economical hints, to tell how the tailor around the corner will do perfectly well some things for which the "swell" tailor would charge roundly, to explain how to get out of a suit the utmost possible service. Such things are beneath no man's attention, though he be a genius or a millionaire. Until the art of dressing properly is understood, the moral progress of society will remain an idle dream. We need not add that the man who wears a "made tie" belongs in the outer darkness of barbarism. It is gratifying also to note that the use of the Tuxedo, or house coat, is earnestly recommended. Since every complete bachelor will invariably dress for dinner, he will find in the Tuxedo an economical and easy substitute for the more rigorous full dress coat, and one that can be worn not only at home, but in informal companies of gentlemen and at the theater or in a public restaurant. We note that our author speaks a good word for the black tie with a Tuxedo, though he does not absolutely bar a white one. This is a question upon which no thoroughly satisfactory ruling has ever been made. For our own part, we think that those occasions whereon a man feels a white tie incumbent also demand a "swallow tail" coat.

The toilet is not less important than the dress. Scrupulous care in this respect is certainly the mark of a complete bachelor. That a man should take his tub every morning goes without saying. At the same time there is no need to insist upon the rigor of the game and say that the water shall be cold. Tepid water is best. "Every man should learn to shave himself." These are golden words. A barber is occasionally necessary no doubt, but there is something offensive to refined sensibilities in the picture of a long row of men in chairs having a part of their toilet performed. Our author says nothing of the habit of having boots blacked in the street, justly regarding it as one so bad as to be unspeakable. Patent tooth powders, washes, pomatums and nostrums of every kind are condemned without reserve. This, too, shows good sense. The care of toilet articles is rightly insisted upon. A man cannot be a complete bachelor unless he is willing to take some trouble. The custom of wearing the hair long is disapproved.

No point is too minute for the consideration of this thoughtful writer. The etiquette of cards is a matter upon which lamentable ignorance is often displayed, and in calling and dining out there are those who show the lack of breeding. The practice of grasping or squeezing the hand of a lady is (under exceptional circumstances) undecidable. "A man removes his glove from his right hand on entering the drawing room, and holds this, with his stick and hat, in his left. The hat should be at an angle, the top about level with his nose." This is important. But something more than mere politeness is required of the complete bachelor. His goodness of heart will come out in his treatment of his servants. Though he must "exercise an iron will," he must also "encourage them now and then by a kind word." And once in awhile they must have a holiday or some cast off clothing. They, in their turn, should be "noiseless and automatic." Such things too many young men forget. With this book, however, they cannot go very far astray. They can learn how to behave at dances and at country houses and at clubs. If it be objected that on these subjects gentlemen do not need instruction, the retort is obvious. Persons who are not gentlemen have their ambitions and frequently try to become complete bachelors. And since this is so, let us be grateful for the mentor who is able to give them so much excellent advice.— Providence Journal.

A GOOD LETTER

From the Clerk of the Circuit Court

FERNANDINA, Fla., Feb. 28, 1896

Dear George—Please send me a bottle of Chamberlain's Cough Remedy. I would not feel easy if I knew there was none of this valuable Remedy in the house. I have given it a fair test and consider it one of the very best remedies for croup that I have ever found. One dose has always been sufficient although I use it freely. Any cold my children contract yields very readily to this medicine. I can conscientiously recommend it for croup and colds in children.

Yours Respectfully, GEO. E. WOLFE.

MOUNT'S FIRST VETO

Two Bills Fail to Meet the Governor's Approval.

TAKING CARE OF THE TAXPAYER.

Veto of the Bill For a Superior Court For Grant and For Separate Districts of Howard and Tipton Counties Sustained by a Vote of 52 to 39—Work of the Senate.

INDIANAPOLIS, Feb. 4.—The governor Wednesday sent his first veto message to the legislature, covering two bills, one for the creation of a superior court in Grant county and the other for the division of Howard and Tipton counties into separate judicial circuits. In his message the governor quoted statistics to show that there had been a diminution rather than an increase in the litigation of these two counties and said: "I believe I am not mistaking the spirit of parsimony for economy, but seeking to be just, alike to litigants and taxpayers, when I suggest that a superior court district composed of Grant and Howard and the giving of more of the time of the thirty-sixth judicial district to Tipton county will afford the needed relief." The governor also suggested that the judiciary of the state is sadly in need of a revision.

The message was transmitted to the house just before the adjournment of the morning session and action upon the vetoed bills was deferred until after the noon hour. Then the author of both bills moved their passage over the veto. The governor was sustained in his veto by a vote of 52 to 39.

The morning session of the senate was very brief, as an early adjournment was taken on account of the death of the son of Senator Schneck. The Shively anti-trust bill was a special order in the afternoon but was re-committed. The senate passed Senator Shea's bill appropriating \$1,000 for a monument at Pigeon Roost and Senator Shively's bill enabling the Grand Lodge of Knights of Pythias to build a Castle hall. Senator Colburn's bill declaring invalid all mortgages that do not have the certificate of the assessor attached showing that they have been assessed for taxation was defeated.

Fate of Two Bills.

INDIANAPOLIS, Feb. 4.—The house on Wednesday passed Mr. Canada's bill providing for the organization of county homes for children by charitable organizations and requiring county commissioners to place children who are a charge upon the county in these institutions. It also defeated Mr. Hall's bill requiring jail prisoners to work out their fines upon the streets and roads.

New Bills Introduced.

INDIANAPOLIS, Feb. 4.—Mr. Sutton, a member of the building and loan commission appointed by Governor Matthews, introduced in the house Wednesday the bill prepared by the commission. Mr. Nicholson introduced an amendment striking out the clause in the present law which gives to graduates of the State Normal, after teaching two years, a life license good all over the state.

Adams-Miller Contest.

INDIANAPOLIS, Feb. 4.—The election committee after hearing all the testimony in the Adams-Miller contest from Parke county, held a final meeting Wednesday and decided to report in favor of Mr. Miller by a vote of 4 to 3. The committee's report was sustained at a caucus last night.

Against Lobbying.

INDIANAPOLIS, Feb. 4.—Representative Farnsworth introduced a bill Wednesday making it a misdemeanor for any person to lobby on the floor of either house. The first offense is a fine of \$10 to \$50 and the second \$10 to \$100. Imprisonment may be imposed in both instances.

Usury Law.

INDIANAPOLIS, Feb. 4.—There were two reports on Mr. Nicholson's usury bill Wednesday fixing the rate of interest at 6 and 7 per cent. The majority report was unfavorable and the minority report which was favorable to the bill was adopted by a vote of 64 to 30.

Intermediate Penitentiary.

INDIANAPOLIS, Feb. 4.—Senator Ellison's bill for the establishment of an intermediate penitentiary for criminals from 16 to 30 is the special order for today in the senate.

Pure Food Bills.

INDIANAPOLIS, Feb. 4.—The house committee on health gave a hearing to the Wholesale Grocer's association last night. The association is opposing the pure food bills before the legislature.

GENERAL STATE NEWS.

Labor Trouble Settled.

HARTFORD CITY, Ind., Feb. 4.—S. McKee & Co.'s window glass factory, blacklisted by President Burns of the Window Glass Workers' association a few days ago, has settled the trouble, and the strike is off.

Pooler Found to Be Insane.

FOWLDER, Ind., Feb. 4.—John W. Pooler, who shot and robbed John Quigley last week, has been adjudged insane and sent to the hospital at Indianapolis. This is the third time he has been in that institution.

Internal Revenue Collections.

TERRE HAUTE, Ind., Feb. 4.—The internal revenue collections for this district for January were unusually large owing to the payment of \$585,412.75 whiskey tax. The total for the month was \$602,828.98.

Trains Blocked.

WABASH, Ind., Feb. 4.—Eastbound freight train ran through an open switch here, plunging 60 feet through the snow, blocking both the main and side tracks. All trains were delayed several hours.

Sheep may be carried through the winter profitably if one has a good store of straw, hay and grain which did not cost too much. If we try to keep them on just enough food to support life, we shall not have much beyond a very poor collection of pelts when spring comes and it does not pay to keep sheep for that end.

COURT NOTES

Our attorneys and many others went to court this morning. The most important suit is the case of John R. Wells who sued the B. & O. S. W. for the loss of a fine clover huller which was torn to pieces by a train at Shields last summer. Several railroad employees went down as witnesses in the case.

CASTORIA.

In England, Queen Victoria has recorded a longer reign than any other English sovereign. In May of 1897 she will have been queen for sixty years. At that time it is expected that appropriate festivities will be held in celebration of the event. It has even been hinted, but has not been seriously considered, that she will abdicate in favor of her son, the Prince of Wales. The truth is that the queen, who is very temperate and methodical in her manner of living, bids fair to outlive the Prince of Wales, and the next king of England will not be Prince Albert Edward but the present Duke of York.

"Shore Acres"

This unconventional comedy drama of New England life does not rely upon any old-fashioned theatre devices for approval or applause, the great strength of Mr. Herne's work lying in its remarkable character creations. There is absolute truth to nature. Its dramatic personae come and go as people do in real life, and their speech and action is appropriate to the scene. Humor and pathos are nicely blended, and the story told in "Shore Acres" is deeply interesting. Mr. Herne's hero does not go about speaking didactic prose, neither does he pose in the center of the stage. Uncle Nat is quite a different kind of a man, and his heroism is of the unconscious quality. There are nearly thirty characters introduced in "Shore Acres." The company carries all its own scenery and properties.

The Ideal Panacea.

Samuel I. Francis, Alderman, says: "I regard Dr. King's New Discovery as an Ideal Panacea, for Coughs, Colds and Lung Complaints, having used it in my family for the last five years to the exclusion of physician's prescriptions or other preparations."

Rev. John Burgess, Keokuk, Iowa writes: "I have been a minister of the Methodist Episcopal church for 50 years or more, and have never found anything so beneficial, or that gave me such speedy relief as Dr. King's New Discovery." Try this Ideal Cough Remedy now. Trial bottles free at W. F. Peter, successor to J. H. Andrews & Co's drug store.

To Protect Fish.

Secretary Hurty, of the state board of health is hopeful that the fishermen of the state will interest themselves in the bill introduced about two weeks ago by Representative Herod, of Johnson county. One provision of the bill is to prevent and abate the pollution of rivers, water courses, lakes and springs. This is not only a menace to the public health, but it is disastrous to the fish. The bill is now in the hands of the committee and some action will probably be taken on in a few days.

A Good Investment

On receipt of ten cents, cash or stamps, a generous sample will be mailed of the most popular Catarrh and Hay Fever Cure (Ely's Cream Balm) sufficient to demonstrate its great merit. Full size 50c.

ELY BROTHERS, 56 Warren St., New York City.

I suffered from Catarrh three years; it got so bad I could not work; I used two bottles of Ely's Cream Balm and am entirely well; I would not be without it.—A. C. Clarke, 341 Shawmut Ave., Boston.

Walter Wellman in his letter to the Chicago Times-Herald says: Congressman Dolliver, of Iowa, as every one by this time knows, is the author of the now famous phrase, "advance agent of prosperity," as applied to Major McKinley. Impatient men are fond of writing letters to Mr. Dolliver, asking him when the show is to come along. They have seen the advance agent, but the main attraction seems to be lost by the way. To one such correspondent, a resident of Calhoun County, Iowa, Mr. Dolliver replied to the following effect:

1. Major McKinley is not yet president.

2. It takes a long time to get out of such a condition as the country has been in for several years.

3. You know you can go out to Hell Slough in your county and get so deep in it before breakfast that you can't get out before sundown.
